Support to DCI

REGISTRY (Executive Registry System) has been completed and is ready for operational use in room 7E12, Headquarters. Tech Note Automation

Tech Notes are now accessible on the VM system for all users. A Tech Note will be published this week telling users how to access them. This will help speed up the information exchange and eliminate some of the paper we now produce and the need for everyone to save old Tech Notes.   STAT

SAFE Facility

Final acceptance inspection of the new SAFE Computer Center for Phase I construction is scheduled for 29 September 1981. The first delivery of Burroughs equipment to support the SAFE Project is expected on 29 September.   STAT
